

EXHIBITION & CONFERENCES

Commercial, Business & General Aviation
and Airport Infrastructure

**CONNECTING PROFESSIONALS ACROSS ALL AREAS OF THE
INDUSTRY WITH SOUTH AFRICA**

The aim of African Air Expo is to further connect the Aviation industry to South Africa. This event will provide the perfect platform to connect professionals across all areas of the industry and promote successful worldwide trade.

Aviation Industries

The largest exhibition for General, Business and Commercial Aviation in South Africa.

The African Air Expo brings together major players within the aviation industry, enabling a demanding clientele to discover the industry's latest developments and innovations in a remarkable and convenient location.

African Air Expo

will focus on 3 core sectors within the aviation industry

- 1 Commercial Aviation**
 Commercial Aircraft Manufacturers, Airline Companies, Cargo, Airport & Ground Handling Suppliers
- 2 Business & General Aviation**
 Private Aircraft Manufacturers, Flight School Academies, Helicopter Manufacturers, Helicopter Operators, Business Jets
- 3 Airport Infrastructure and Suppliers**
 Airport Service Providers, airside and passenger side services

General, Business and Commercial aviation

The aviation industry has seen strong growth within Africa in terms of number of movements and registered aircraft which have increased steadily over the last few years. Africa is a fertile market for the growth of General, Business and Commercial Aviation.

African Air Expo will focus on Business Aviation within :

- Private Aircraft Manufacturers
- Helicopter Manufacturers
- Helicopter Operators
- Business Jets
- Business Jet Operators
- FBO's
- Airlines
- Regional Business Aircraft Selling Agents And Representatives
- Terminal Operators
- MRO Services
- Financing
- Insurance
- Avionics
- Handling
- Training

The African private jet market is predicted to grow by more than 25% by 2025, with 160 new aircraft being delivered to the continent. A key driver behind this growth will be the southern Africa region which is expected to account for around a third of all the jets based in the continent, making South Africa the key business aviation hub on the continent and thus the perfect location to host the event.

Airport Infrastructure and Suppliers

The development of airport infrastructure across the globe is steadily increasing as a result of the growing demand for both domestic and international air travel.

It is essential that airport planning and infrastructure development supports safe, functional, capacity balanced and user-friendly airports.

One of the aims of the African Air Expo is to highlight the importance of infrastructure within aviation, this includes airport procurement, suppliers, solutions and technology.

African Air Expo will attract key aviation industry players to discover first-hand the range of new technologies and solutions that the industry has to offer.

The African Air Expo is an ideal platform to discover the latest technologies and learn about emerging trends and networking with key decision makers and get first-hand knowledge about the industry's present and future growth.

African Air Expo will have strategic exhibition dimensions which are segmented for each aviation business need.
